The 2007 Merit Raises: A Look Ahead

The 2007 merit raise process has concluded, and within a few weeks usmnews.net will be able to reveal just what happened. Until then we thought it might be useful to return to the beginning of the 2006-07 academic year to see the starting line for the 2007 merit raises race. The table below contains all of the 2006-07 CoB faculty who are returning for the 2007-08 academic year. Along with the names are the relevant CoB units and other "notes" about various faculty. In most cases, the "notes" section lists various CoB professorships held by faculty. With the exception of the Draughn Professorship, the CoB's professorships pay anywhere from \$3,000 to about \$20,000 per year, none of which is included in the "'06-'07 Salary" column below. The Draughn Professorship is supported by a \$1,000,000 endowment, and could yield a salary supplement of \$50,000 per year. Finally, the table below is color-coded by academic rank. This coding process is as follows: professors, associate professors, assistant professors and instructors.
