

A Political Message from *Hal Greene*

Harold Doty would have you think that he believes in faculty governance, and that he supports applying an annual faculty evaluation fairly . . . But, his record tells a different story . . .

- Doty allowed a small cadre of CoB management faculty to bypass customary faculty governance channels in order to push through a *new* annual evaluation process that included little oversight (USMNEWS.net audio/e-mail archives, December 2006) . . .

Harold Doty would have you believe that he is honest . . .

- Despite telling University of South Florida faculty and administrators "I refused to cancel the [real estate] major . . ." (Tampa, FL, September 2005 -- USMNEWS.net video archives), the record shows that he attempted to do just that only 2 months earlier (CoB Executive Team meeting transcript, Summer 2005) . . .

WHEN THE TIME COMES DURING 2008-09, VOTE NO ON DOTY'S CANDIDACY TO LEAD YOUR BUSINESS SCHOOL!
