WHO READS USMNEWS.NET

We are frequently asked who usmnews.net's readers are. Given the numbers of readers it has become increasingly difficult to estimate by percentages where our readers come from. However, over the past several months we have seen an increase in our Florida, Mississippi and Texas readership. The rest come from various locations throughout the world. Many are regular readers. The following are locations for some of the readers observed since beginning this report. Where a specific college or University is identified in the IP address, we have included the name. We have no way of identifying individual readers, nor have we undertaken any effort to do so.

Given the interest in this report, we are making an effort to update the information on a regular basis. Here's a sample.
