

## Bushardt Assumes Control in Tyler

HATTIESBURG – Former CoB management professor Stephen Bushardt has officially [assumed control](#) of the MGT and MKT department at the University of Texas at Tyler, where former CoB dean Harold Doty is the top business school [official](#). The insert below shows how UTT presents Bushardt as its new b-school administrator.

Further down, UTT's webpage for Bushardt points out that he (1) holds a DBA from Mississippi State University, (2) assumed control of the UTT b-school department during the summer of 2010, (3) came to UTT directly from a teaching post at Spring Hill College in Mobile, (4) holds the title of emeritus professor of management at USM, and (5) was born and raised in South Carolina, but now "embraces his new life as a Texan." Of course, nothing on Bushardt's page recognizes his recent [troubles](#), particularly the [court records](#) reporting spousal and alcohol abuse. Sources say that, given these troubles, Bushardt would likely embrace a new life almost anywhere other than Hattiesburg.
