

Breaking News

And So It Continues

HATTIESBURG – If the reports now spreading from one CoB faculty to another are accurate, and sources insist they are, then not even the recent report that the CoB has been given a clean bill of health from the AACSB, even if only after a 6th Year Review, can stem the constant flow of bad news from the CoB. Sources have just informed USMNEWS.NET that economics professor Franklin Mixon has resigned. Mixon's departure leaves the CoB's economics unit as an empty shell, which will have to be rebuilt from the ground up. The loss of Mixon carries with it the loss of a solid research record, one that reporters at USMNEWS.NET will be covering in the coming days and weeks.
