Saunders Calls on Williams to Investigate "Doty Incident"

HATTIESBURG – Earlier today USMNEWS.NET reported that USM Police were dispatched to the CoB's home, Joseph Greene Hall, to report on an altercation involving former CoB Dean Harold Doty. Doty, a co-defendant in a federal court legal proceeding, reportedly threatened, verbally, another CoB faculty, and someone who served as a witness for the plaintiff in that very same federal court process. Now, reporters at USMNEWS.NET have just been informed that USM President Martha Saunders, another of the co-defendants in that federal case, has asked Interim CoB Dean Alvin Williams, yet a third member of the group of co-defendants in the federal proceeding, to investigate the episode involving Doty, their fellow co-defendant. What's more, according to sources Williams' investigation appears to have come only at the behest of Saunders (i.e., it was not of Williams' own initiative), and only after about two hours had elapsed. By that time, USM Police had come and gone from Greene Hall with details of the incident.

As of now, Williams' investigation has been under way for about 72 hours. According to sources, no findings from Williams' have been made public. Reporters with USMNEWS.NET will continue to follow this developing story.
