¹ Quality adjustment is made using the standing CoB college-wide, faculty-approved journal ranking list (ca. 1996). The number and type of research activities are taken from SEDONA.

² "Books" are scholarly books and do not include textbooks or other pedagogical materials.

³ "Count" is the simple sum of all research activities.

⁴ "Total Points" is calculated by taking the weighted sum of research activities, with Prem = 9, A = 7, B = 5, C = 3, Other = 2, Proc = 1, Book = 4, and Book Chap = 2.

⁵ QPA = Total Points/Count

⁶ Quality adjustment is made using the standing CoB college-wide, faculty-approved journal ranking list (ca. 1996). The number and type of research activities are taken from SEDONA.

⁷ Quality adjustment is made using the standing CoB college-wide, faculty-approved journal ranking list (ca. 1996). The number and type of research activities are taken from SEDONA.
