¹ Journals do not include newspaper articles.

² Quality adjustment is made using the standing CoB college-wide, faculty-approved journal ranking list (ca. 1996). The number and type of research activities are taken from SEDONA.

³ "Count" is the simple sum of all journal activities.

⁴ "Total Points" is calculated by taking the weighted sum of journal activities, with Prem = 9, A = 7, B = 5, C = 3, Other = 2.

⁵ QPA = Total Points/Count
