

## Coast Cabal Monday Meetings?

There are not many accounting course offerings on the Coast campus. Isn't it strange that there would be three offered at the same time on the same day? Steve Jackson, who is only teaching on the Coast in the spring, Charles Jordan, and Roderick Posey all have Monday classes from 3:30 to 6:15 p.m. Posey is based in Hattiesburg and gets the earlier class so he is not out late teaching; this courtesy was never extended to Dr. Marc DePree. Jordan, based in Florida, is probably benefited by this location. The interesting question is this: was this schedule intentionally set so Steve can seek counsel from Posey and Jordan, and issue instructions for running the department back in Hattiesburg through them? This would also keep others, such as Mary Anderson, out of the loop. This accounting assemblage will continue to be monitored.
