Dear USM Pride,

Don't be surprised to find out in the future that there is some "shadow governance" going on in the COB. There is a faction of faculty in management that is currently being shut out of certain processes. This has supposedly been going on for a while in EFIB also.

There is a feeling of having been "a meeting before the meeting" around the COB at times. Be on the look out for it. You may see what I am talking about.
