

Dear USMNEWS.net

Dear USMnews,

After reading Dr. DePree's column I was struck by the idea that a stalker is given free run on the Southern Miss campus. How does any student, staff, or faculty member feel safe? I request that Dr. DePree - for public safety reasons - break his silence and reveal the person's name so anyone near him or her can take appropriate measures for safety. I find it ironic indeed that Dr. DePree is cautious with this information while his campus attackers felt (and feel) free to attack him by name.

Thank you.

Dear USMnews.net:

Have you considered looking at the [Martha] Saunders airplane travel and the locations of her grandchildren? That may be very interesting.

[Not a Passenger]

Dear usmnews,

Since the IHL apparently does not want to publish its meeting minutes and inform Mississippi taxpayers concerning Martha Saunders' new contract, would you consider a FOIA request to get that information? Hundreds of USM employees anxiously want to know if she received a raise, and if so, how much. The silence so far might indicate she did get a raise. The reaction to that will be far from silent.

[name withheld]

Dear usmnews.net:

I find it appalling that the IHL seems to believe - by awarding a new contract to USM president Martha Saunders - that Saunders is performing her job well. If that is so, then the IHL must be solidly behind the northern Mississippi schools and is enjoying the dismantling of Southern Miss just when it was getting big enough and visible enough to cause the "sister schools" and the IHL digestive problems.
