Dear usmnews.net,

I have been a bit disappointed that you have not run your usual predictions of the New Year. Your predictions are usually [spot on](#). May I start the New Year with your first prediction?

- 1) This time next year, the University will still be limping along with an interim president.

Name withheld

Dear Name withheld,

Thanks for the prediction. We have been receiving others, some of which are interesting if pretty incredible. However, we have learned, if nothing else, the University's ability to waste money and operate inefficiently seems to be without limits.
