Dear usmnews.net,

Like many readers, I have watched the unfolding Galaxy Tax™ scandal at Southern Miss. As I recall, when this disaster was first announced, this past fall, usmnews.net [was receiving and publishing reports and comments](#) warning about the problems. I have to say that Dr. Saunders' denial of any culpability in the mess is, at best, disingenuous. Who does she think she is kidding?

Of course, another question is whether it [the Galaxy Tax™ scandal] will all be swept under the rug and declared confidential by the IHL like the [Pinion/Research Foundation scandal](#)?
