

*Dear usmnews.net*

Dear usmnews.net,

I hear that the Gatton College of Business and Economics at the University of Kentucky is looking for a new dean. Rumor has it that Harold Doty immediately applied. Sadly for Harold, after the search committee checked his references, Harold's application went into the "better luck next time" file.

Is there a business dean's job in the country where Harold hasn't applied?

Name withheld by request
