Dear usmnews.net,

I have been asked by colleagues at other schools whether The Toadies cartoon series is based on real events at the CoB. I tell them, yes. So far, they have been too polite to call me an out-and-out liar. They are all politer than that. What they do say is no half-way competent Dean or University President would stand for this kind of nonsense. I have to agree; no half-way competent Dean or University President would put up with it. That begs the question since my opinion is that USM has not had a competent CoB Dean or University President for many years.

However, back to the original issue, would you tell the readers where the ideas for The Toadies come from?
