

*Dear usmnews.net*

Dear usmnews.net,

[Dr. Bennett's resume](#) is the hot topic around faculty circles at Southern Miss. Here is the consensus. According to his resume, he has no research record and little teaching experience. Does the IHL really expect us to believe he was the "best" candidate? If he was, Southern Miss is in a lot more trouble than any of us thought.

Name withheld

Dear Name withheld,

Dr. Bennett may be a nice guy. He may be hard worker. He may become a good president. At this point, we don't know. However, everyone who has communicated with usmnews.net seems to agree Dr. Bennett's resume is embarrassingly weak. Yet, as weak as the resume is, just wait until you see Dr. Bennett's dissertation. After looking at a copy provided by one of our diligent readers, usmnews.net obtained an official copy. usmnews.net's reporters and editor are in the process of giving it a thoughtful review. One reporter's preliminary assessment is, it wouldn't have passed muster as an undergraduate honors thesis.
