Dear usmnews.net,

I have no doubt that many of us who date back to Doty's days at the College of Business at USM read the [recent report](#) about Doty's most recent foray into litigation at UT-T with considerable chagrin. If the allegations are true, it is obvious that Doty learned nothing about the proper role of a dean from his experiences at USM. As someone who lived through Doty's reign as Dean at USM, the claims are all too plausible and have an eerie familiarity in tone, if not specifics.

Name withheld

PS: Would you consider re-printing some of the Doty reports? I'm sure our colleagues at UT-T would be interested.

Dear Name withheld,

Here is a report readers might find interesting.
