Dear usmnews.net,

When I read [A star's downfall at historically black Alcorn](#) [in The Hattiesburg American on February 22, 2014], two questions came to mind:

- (1) why didn't the IHL just let Dr. Brown quietly resign like they have done with so many others, including Martha Saunders, and
- (2) when are the idiots at the IHL going to figure out that unless they stop the nonsense with the secret presidential searches they are going to continue to waste time and money hiring, firing and replacing their bad selections?
