Dear usmnews.net,

As a matter of curiosity, have you gotten a copy of [incoming] President [Rodney] Bennett's CV, yet?

The overwhelming majority of the people in the department pool says it is unlikely that TOP SECRET document will ever become public.

Name withheld

Dear Name withheld,

We haven't gotten it yet, but that doesn't mean we have given up. However, at this point if I were included in your department's pool, I would say that Dr. Bennett and the IHL will continue to claim his resume is "confidential". I suspect we are all of the opinion that a wager requires an element of risk. It also requires someone on the other side of the bet. In this case, we probably have neither factor.

On a more serious note, we continue to hear surprise and disgust that the IHL and the University of Southern Mississippi have declared the new President's vita to be a confidential document.
