

*Dear usmnews.net*

While a few comments do not make a pattern, the word around the water cooler is the Gulf Coast is rapidly becoming little more than an administrative afterthought in the Round Building. Word is, President Bennett and his cohort of Hattiesburg administrators are only interested in USM-GC as a profit center. What are you hearing?

Name withheld

Dear name withheld,

usmnews.net has heard a number of comments similar to your email. In fact, it appears these ideas are even finding their way into the sports blogs.

The situation at the Gulf Coast campus is getting worse under Dr. Bennett. The students and faculty there are being treated as an afterthought under Dr. Bennett. He has taken away the ability of anyone on that campus to make decisions about that campus.
