Dear usmnews.net,

The [Voyager article](#) about Lee Gore had to be one of the funniest things I had read in a long time. My favorite quote was "Gore said he felt he moved as far up as he could in the ranks at USM, but felt that he wanted to continue practicing law." Yeah, he had moved as far up as he could at USM. He had been replaced and shown the door!!

Dear Name withheld,

We have the same recollection. In late March 2011, when Lee interviewed for a job as University Counsel at Georgia Southern, usmnews.net ran a report [debunking his claim](#) that he was University counsel at the time of the interview.
