

*Dear usmnews.net*

Dear usmnews.net,

I can't believe it. [The HA](#) just reported that the MS legislature has pledged to borrow \$100,000,000 a year for "school needs." One hundred million dollars a year! IHL Commissioner Bounds and state university administrators are "pleased."

Answer me this: Who's going to pay for this, plus interest? And when? If schools can't pay for thier huge expenditures now, what makes these "leaders" think MS will be able to pay it later?
