Dear usmnews.net,

Your recent report about Mary Anderson's lack of publications has raised issues that I am sure she wishes were buried and forgotten. For those who may not remember, several years ago Mary Anderson claimed an impressive [Accounting Horizons](#) pub (A-level). To date, nobody has been able to find it, because it doesn't exist. Experienced non-accounting faculty continue to tell the story and snigger behind her back.

Everyone knows she is an awful teacher and an even worse researcher. Why does [USM] continue to put up with her?
