Dear usmnews.net,

I read the [newspaper report](#) about former Dean Lance Nail. I guess TTU doesn't cover for their administrators as much as USM does.

Dear usmnews.net,

According to KCBD [TV] Dr. Nail claims "... the investigation is not entirely accurate." I would love to hear Lance's explanation of what part of this lurid, disgusting story is not accurate?

Dear names withheld,

You are not the only readers to make some version of these observations. Long time faculty are well aware of whispered claims of similar behavior at USM's College of Business. When questioned under oath in a deposition, long time former instructor, [Patty Munn](#) testified, "And he -- and that there was some kind of sexual harassment deal with Niroomond [former associate dean at USM's CoB and current Dean at University of Texas Victoria] and that Dr. Doty [former Dean at USM's CoB, former CoB Dean at University of Texas Tyler] did not follow-up on it or discipline Niroomand as he should have."
