

Dear Santa

Dear Santa:

Can't you make this DeFree guy go away? He is more of a pain when he is not here than when he is here. I do not need any help looking foolish. You also need to make the economy better because I need raises, not the lack of raises and budget cuts. If they keep looking for money for these cuts, I may get exposed for the little I do for what I am paid. While you're at it, get rid of this Nail guy as dean; he is not playing ball with us in Accounting. Just who does he think he is? Everyone does what we say. If you cannot handle this, that is fine; just say so. I will call Carl again.

I mean it.

Patty
