

DEAR USMNEWS.NET

Dear usmnews.net,

A few days ago I read a report [that college tuition has gone up more than 8% in the past year](#) – far more than the rate of inflation. That probably doesn't include all the fees and expenses tacked on to the bill. After reading the reports you have been (re)publishing about how President Saunders spends tax and tuition dollars, it is easy to see why.

Dr. Saunders, if you read this letter, ask yourself, is your plane, a walking trail, a parking structure, and travel for you, your husband and friends, etc. worth mortgaging your students' futures? What do any of them add to [the mission](#) of the University?

Keep up the good work,
