

Doty Back on Top

The College of Business & Technology at the University of Texas – Tyler has updated its [main webpage](#). It now reflects the fact that former CoB dean D. Harold Doty is now its current dean by presenting the "Message from the Dean." There Doty lets UT-T constituents know that the CB&T was established in 2001, and that it was affirmed by the AACSB in November of 2007. Given the AACSB's new 5-year cycle, the b-schools at UT-T and USM will come up for reaffirmation in 2012 – USM in the spring and UT-T in the fall.

The rest of Doty's message reads like one would expect from someone hoping to avoid using any of the phraseology that was utilized at USM between 2003 and 2007. For those who may be interested in purchasing Doty's Hattiesburg home in the exclusive Canebrake neighborhood, he is asking \$364,000 for it (visit [realtor.com](#) for photos, like the one below, and specs).
