Interestingly, USM president Martha Saunders, Gore's former employer at USM, began her higher education administration career at UWF, having once served as a college dean there. Saunders and her husband, Joe Bailey, also own a house near Pensacola Beach. Each of these details has been the subject of various reports/editorials here at USMNEWS.net. Though perhaps an unfortunate circumstance for UWF constituents, sources tell USMNEWS.net that Gore's connection to Saunders likely places him above the other three finalists for the position. Of course, time will tell.
