

*Me First!*

Old George must have the adrenaline and venom rushing through his veins. He has been working hard to be the first, and an all too regular, visitor of the new dean. This provides Dean Nail with an early opportunity for advancing the CoB by realizing who and what George Carter is, and removing him as Chair of EFIB; even better is to make sure he is never in any administrative role again in the CoB.

Dean Nail speaks of transparency in administration; he looks forward with a positive plan. Old George stands for years of sneaky, shady, and vindictive favoritism as administration. We do not believe Dean Nail can be fooled and manipulated by you, George. We welcome your early encounters with him so it speeds up your inevitable ouster.

See, you can be first at something, George.
