

New Year's Resolutions

1. Stop wearing suits; it never got me anywhere with the new dean.
2. Retain my rightful title of "Chair" after June 30th.
3. Keep the Economics Department the "Economics Department".
4. Rebuild and fortify the Economics Department.
5. Start a new search – official or unofficial – for a new dean who is an economist so he understands things correctly.
6. Help the School of Accounting get a good new director so our axis remains solid.
7. Assist Farhang, if needed, to get a dean job somewhere, especially before the former "jerk downstairs" gets one.
8. Get Ed more awards and raises.
9. Hire more new faculty that owe their existence to me; I do not like it if they do not speak English very well (even Ed doesn't and he is from the USA), but I can tolerate them if they are loyal to me.
10. Add new Econ degree programs; that will show them. Shut me down? I will show them. I have not yet begun to fight!

George Carter, Chair-for-Life
