

Niroomand's Pots of Money

Updated 4 August 2006

Based on our closer inspection of Niroomand's travel documents, the investigative team was amazed at the sheer number of accounts available for Niroomand to draw from. While most faculty have only one or two non grant related accounts to draw from (usually their departmental allotment and any available development monies), Niroomand has received reimbursement from eight non grant accounts. In total, Niroomand has drawn from nine accounts (or "pots" of money), numbered, named, and listed below.
