What USMNEWS.net sources refer to as "the mobbing of Karen St. John" has been the subject of numerous reports and editorial columns in recent weeks here at USMNEWS.net. Readers who have been unable to check with USMNEWS.net regularly over the past several weeks are invited to use the USMNEWS.net Google search bar on the main page of the website to catch up on the history of this saga. Of course, long-time readers of this website will recognize Doty as the former business dean at USM (from 2003-07) who was at the root of many problems in that organization (USM's b-school), culminating in a failed AACSB re-accreditation attempt in Feb-07. Doty mysteriously "resigned" two months after that failed re-accreditation effort. Two years later he migrated west to UT-Tyler, where numerous problems have since arisen at that east Texas institution.
