

Part 10.

Questions directed to Ombudsman Gordon Claude Cannon at his deposition on April 16, 2010 about his investigation of Professor DePree with the charge of recommending whether to terminate DePree's tenure and employment: [T]hey (Deans Doty and Williams) specifically said the continued employment of [DePree] would jeopardize their accreditation?

Cannon: If they did not have -- if they were neither academically nor professionally qualified. I believe that is correct.

Question: Did you review anything to determine the accuracy of that statement?

Cannon: No.

Doesn't Dr. Cannon claim to be a scientist? Science strives for knowledge. If he is a scientist, why does he act contrary to the principles of science? Why is Dr. Cannon satisfied with ignorance?

If Deans Doty and Williams told Dr. Cannon the world is flat and that the earth is the center of the universe, would he believe that, too?
