

Gordon C. Cannon – University Ombudsman

Part 3

A question directed to Ombudsman Gordon Claude Cannon at his deposition on April 16, 2010 about his investigation of Professor DePree: “If (someone) told you something, and it wasn't true, and you based your recommendation (in your ombudsman report) on that fact, would that change your recommendation?”

Cannon: “I don't think it would change anything.”

If that doesn't offend your academic sensibilities, tune in for Parts 4 through 16. Dr. Cannon is not through trashing the last two thousand years of progress in the fields of reason and science.
