

DEAR USMNEWS.NET

Dear usmnews.net,

I just couldn't help but add my two cents about this morning's report [["Would That It Were So", USM's Basketball Reality vs. Saunders' Fantasy](#)]. Why should Southern Miss' APR score for basketball come as any surprise? As [usmnews.net has reported](#) for many months, Larry Eustachy's USM [2011] roster turnover rate averages a whopping **64.6%** per year. Eustachy's roster turnover averages 66.9% per year over his first six years at USM. Given these [APR] scores, how can Southern Miss raise its four year [APR score from 910](#) to 930 so that it is tournament eligible in 2013?
