

## WHAT DR. SAUNDERS SAID, WHAT DR. SAUNDERS DID

Dear Dr. Saunders,

As we have looked through records of your chancellorship at University of Wisconsin-Whitewater, usmnews.net reporters have identified some troubling issues. Concerns are magnified because of the current financial conditions at USM. \$16,000 per month plus for an airplane? Where is the nearly \$1,000,000 going to come from in a couple of years to make the balloon payment. Are you using USM and the USM Foundation as your private booze account? As faculty, students, taxpayers and "constituents" we are entitled to know.

Saunders deposition, November 11, 2008

P9 270-271

Q Did you understand that food could be charged on the Pro-Card for any reason?

A I don't think so.

Q So if we see charges on your Pro-Card to a facility for food, that would be a violation, as you understood it, of the rules governing Pro-Card usage?

A It would be a violation.

pp. 271-272

And I will represent to you that one of the documents that we obtained during the discovery of this matter is a Pro-Card report and attached to it is a receipt from the Phoenician, and there are charges which were tracked back to your Pro-Card for a place called the 19th Hole Snack Bar and charges for room service, charges for the cafe and ice cream parlor, charges for The Honor Bar. Should those have properly been charged to the Pro-Card?

A No.

Let's take it a step further. Was it proper to charge a trip to the beauty shop, the spa (Phoenician Comforts), etc. to a UW-W credit card? Did you? Here's a [receipt found in Court records](#).
