<Dear USMNEWS>

The e-mail from health dean P. Fos is interesting to say the least. I am not surprised to hear that the dean pool is not good, and no one else likely is either. The COB is not a place that would attract any sort of quality applicants for dean after what it has been through under Doty. Now that Jeff Bower has been fired it looks like the whole university is going to look like the COB in a short while. It's terrible.
